

MMLU@AA | Master in Mediterranean Landscape Urbanism

LANDWORKS

Sardinia 2012

Realizing Landscape Installations

Based on our successful experience of **LandWorks Sardinia 2011** in regarding and reconsidering the unique landscapes of the Geomineral Park, **UNESCO** heritage, in Sardinia, the **Master of Mediterranean Landscape Urbanism MMLU@AA** in collaboration with the Parco Geominerario della Sardegna, the Comune di Arbus, Guspini, Iglesias and other partners will realize a number of on-site projects to underline the significance of the landscape, the natural and cultural heritage.

It will open new perspectives and opportunities for future development.

Together with local actors under the guidance of internationally renown guests the workshop participants will build **temporary and permanent installations.**

Ideation and Direction

Prof. Stefan Tischer
Director MMLU@AA

with the participation of

Ferdinand LUDWIG | Baubotanik | Stuttgart

João NUNES | PROAP | Lisboa
